

## Email promotion for Curcumin Triple Burn

Subject: *Take this once a day to turn back the hands of time*

They say that time waits for no man, that time only flows in one direction and brings with it an eventual in health and vitality. But that no longer has to be the case.

You may have heard about the miraculous benefits of curcumin, the wonder spice that reduces inflammation, boosts cardiovascular health and stabilizes blood sugar. And it's true – scientific research has confirmed that curcumin has 619 proven health benefits for the human body.

Curcumin, a polyphenol in turmeric, has been used for millennia to treat a variety of ailments, ranging from colitis to arthritis to dementia and even cancer. In the villages where it is consumed on a daily basis, there is no need for old age homes, as the elders there are vital and active parts of their families and communities.

But curcumin supplements alone are not nearly enough for you to experience the amazing health benefits. That's because in nature, curcumin is never consumed in isolation.

In order to unleash its healing potential, I discovered that curcumin must be combined with other curcuminoids, the right amount of two ancient spices and a superior delivery technology to boost its effects an astounding 2,000%.

To make it even more effective, I added an adaptogen, a “smart herb” that intuitively knows what the body needs and delivers those compounds where needed.

I call this health boosting formula **Curcumin Triple Burn**. You will call it nothing short of miraculous.

Thanks to its combination of ingredients that all work together to deliver optimal health, **Curcumin Triple Burn** can:

- Boost your energy level by promoting a healthy cardiovascular system
- Give you an extra spring in your step by supporting health and flexibility in your joints
- Enhance your appearance by supporting good vision and youthful looking skin
- Help you keep blood sugar and triglycerides at the right levels
- Keep you sharp by strengthening your focus, memory and brainpower
- Slow down the aging process by protecting and even lengthening your telomeres

One daily pill of **Curcumin Triple Burn** is all it takes to make you feel like you are shedding decades. Your friends will be amazed at your newfound youthful energy!

“After a couple of months of taking Curcumin Triple Burn, I started feeling less tired and there were other things too. I started springing out of bed in the morning because my joints stopped being so creaky. My husband started taking it too, and now he joins me on my daily beach walks.”

Beatrice L, Miami Beach, FL

“When I asked my friend Rachel what the secret was to her glow, she told me about this product. I was skeptical but thought I’d give it a try. She was right! I haven’t felt this good in years and now I’m getting compliments too!”

Fran H, Boulder, CO

“I’ve been living with colitis for the past 27 years. When I had a bad flare-up about 6 months ago, I started doing some research on natural cures. I came upon this product and tried it. The inflammation started disappearing, until it went away. I take Curcumin Triple Burn every day to keep it that way.”

Oscar R, Springfield, MA
